

WOMAN: UNTITLED

Presented by

The focus of this exhibition is to highlight women in various lights—socially, economically, politically, aesthetically and figuratively. Inspired by the desire to underscore the presence of women artists, the goal is to draw attention to the perspectives that women have on the world through art. This show is featured in a multi-media platform that will spotlight 14 Palm Beach County artists. Painting, drawing, performance and photography are included in this exhibition. This exhibition also coincides with International Women's Month that is celebrated every March. Curated by Raheleh Filsoofi, Sibel Kocabasi and Nichole M. Hickey.
